PRODUCTIVITY, COST EFFICIENCY & SERVICE TO THE FARMER

# Soilmaster fertilizer spreaders

**SOIL MASTER**

The machine insures the equal distribution of fertilizer and grains on both sides due to its matriculate design.

Upon request, it may be possible to spread in just one direction. Its wheeled design insures an easy carriage

Optional: Remote control with hydraulic cylinder.

6 different models available, with capacities from 600 L to 1200 L.

Spreading width up to 24 meters
